Magnolia glauca
(Sweet Bay)

65th
Year

A BIT OF EXPLANATION is in order to try to tell you, our long-suffering patrons, particularly of last year and the year before, just why we are still short of roses and fruit trees. This time it was a rather bad hailstorm (end of May) that ruined thousands of spring-budded roses which had given promise of better than average performance. We were, however, able to save some from the record-size hailstones and what we do sell this winter (no shipments before January) will be first class. Sorry they are so scarce.

The peaches, pears, persimmons, pecans and plums were hard hit, too; the bark was cut to ribbons on the storm side of their stems. Fortunately, nature has repaired much of this damage but it is inevitable that some, when received, will still show signs of the terrific beating they took. We tell you this, not as an apology for our stock, but so that you may know the WHY and realize at once that although appearance may be marred, quality and productive capacity have in no way suffered.

Here let us state definitely that nothing will be sold to anybody unless we are willing to back it up in the usual way. The only exceptions to this statement would be in instances where customers personally see and want some below-par item, or when sales are made and stock dug for shipment **FOR SOME REASON CONTRARY TO OUR RECOMMENDATIONS.**

Now here is some good news to brighten the story a little. We are now better supplied with help than during the war years. This will, we are sure, result in more expediency throughout our operations, and will, of course, greatly benefit all who deal with us.

Our supply of general ornamentals is perhaps surprisingly adequate for the season now approaching, and it has been kept in excellent condition through the untiring efforts of the field foremen and their men.

We anticipate a return to prewar planting (much curtailed since 1942), and with gardeners and caretakers again available, there will doubtless be much friendly rivalry among home owners to be ahead of the parade in planning and planting.

Although our service does not include landscape work, we are able to furnish suggestions and sketches by mail as an aid in bringing the grounds up to date or starting from scratch, in the event that anyone is fortunate enough to be the proud possessor of a new home. May we suggest that if possible such requests for drawn plans be made in summer or early fall when our staff is not so busy as during the winter months.

Looking ahead to a really outstanding season, we plant **GROWERS** say to you plant **USERS**, "Thank you, one and all!"

RARE CAMELLIAS, continued

Adolphe Audusson. Large, semi-double flower of turkey-red with distinct darker-colored veins.

Comtessa Lavinia Maggi. Very large; imbricated form. Pure white with cherry lines.

Duc de Bretagne. Imbricated, medium size; rose-pink shading to lighter pink in the center. Good for cutting.

Fred Sander. Semi-double; turkey-red, occasionally spotted with white. An unusual flower that is very desirable.

Giardina Schmitz. Imbricated blooms of ruddy pink.

Jubilee. Big, semi-double, soft pink. An upright grower.

Kumasaka Variegated. Peony-form; deep pink with white markings and curling center petals, showing a mass of golden stamens.

Lady Hume's Blush. Medium size, full double; beautiful shade of blush-pink, almost white. Imbricated form.

Lady Mildred. Large, semi-double flowers with crimson filaments. This seedling was selected at Glen Saint Mary Nurseries and is being introduced for the first time.

Linneata. Peony form with pink lines and spots.

Margherita Caleonie. Medium sized, double; variegated crimson, splotched and washed with white.

Madam Feters. The imbricated flowers are a beautiful bright red.

Madam Haas. Double, imbricated, rose-pink.

President Allard. Imbricated flowers of pearly white banded with red.

Reine Marie-Henriette. Beautiful pink speckled with pure white; imbricated.

Sargeant Barrios. Large, semi-double, rosy red. Compact and upright in growth.

Sophia Chiarugi. Tender pink, imbricated.

Sir de Bahuau-Litou. Imbricated, flesh-pink.

Spectabilis. Large, double, bright red.

Traversi Plenissima. Imbricated red.

Valvaredo. Vivid pink flowers of imbricated form.

**WE USE IT HERE—
RELIANCE AZALEA AND
CAMELLIA FERTILIZER**

In response to many requests of our customers, we are happy to offer this scientifically blended plant-food for the acid-loving plants. We recommend at least two applications a year—more if the soil is very light. A RELIANCE booklet entitled "Azaleas and Camellias" is available here on request. It gives a lot of good information about these plants and suggestions for their care.

Prices: F.O.B. Glen Saint Mary

25-lb. package \$1 50
100-lb. bag 4 00

Prices on standard varieties, Class A:

B&B.	Each	B&B.	Each
8 to 12 in.	\$2 00	30 to 36 in.	\$7 50
12 to 15 in.	2 75	3 to 4 ft.	10 00
15 to 18 in.	3 50	4 to 5 ft.	14 00
18 to 24 in.	4 50	5 to 6 ft.	20 00
24 to 30 in.	5 75		

Carlotta Grisi. Deep carmine flowers of double imbricated form, borne on long stems. They stay fresh longer than most varieties.

Festiva. Imbricated flowers of light cherry color bordered with white.

Geante des Battailles. Small, peony form, variegated turkey-red with white blotches. The center is a compact mass of petaloids.

Gigantea alba. Large, double, white.

La Reine. White, striped with carmine.

Monarch. One of the handsomest of the late-blooming Camellias. Peony form; deep pink, often spotted white.

Mrs. Charles Blard. Medium size, double, white. The stamens are hidden by the large, somewhat twisted petaloids.

Mrs. William Thompson. Large, white, semi-double.

Pink Star. Semi-double, delicate bright rose-pink. Outer row of petals roundly pointed, giving a star-like appearance.

Snowdrift. One of the loveliest of Camellias and perhaps the hardiest of the whites. Perfectly formed, semi-double, pure white flowers with beautiful golden stamens.

18 to 24 in.	3 25	5 to 6 ft.	12 00
24 to 30 in.	4 00		

Carpentre. Very double, with many petaloids in the center. Medium pink; form like Professor C. S. Sargent.

Christmas Glory. Small, peony form, turkey-red to rose-madder. The center is made up of small, folded, somewhat twisted petaloids interspersed with large, folded, curved ones, making a flower of unusual form and interest.

H. A. Downing. Semi-double flowers of deep rose-red. Very large petals; stamen slightly interspersed.

Mathilda. Double, pink, imbricated.

Mrs. Abby Wilder. Large, azure-white with an occasional suffusion of light rose. Petals are very numerous. A vigorous grower.

Napoleon d'Italie. Double, medium size; rose-red with very dark stripes.

Perugiana. Late, double, white.

SASANQUA CAMELLIAS

ITEMS DESCRIBED IN CATALOGUE
ON PAGE 28

Blanchette	Rosea.
Briar Rose	Tanya.
Mine-no-Yuki.	White Dove.
Oleifera.	

Prices on Sasanqua varieties:

8 to 12 in.....	\$1 00
12 to 18 in.....	1 50
18 to 24 in.....	2 25
2 to 3 ft.....	3 00

Blanchette. A single white flower which reminds one of dogwood. Very sturdy and upright, with dainty gray-green foliage.

Briar Rose. Soft clear pink, resembling the wild rose. Small dark green foliage and a flaring habit of growth.

Oleifera. Very large; white petals tipped pink.

Tanya. Deep rose flowers. Foliage dark and glossy; habit rather weeping.

White Dove. Words are inadequate to describe the delicate beauty of this trailing sort, with its quantities of feathery, double, snowy bloom.

Luxembourg	Talisman

New Patented Rose, MABELLE STEARNS

Because of the great scarcity of Roses all over the United States, we have been unable to procure our usual quota of Patented Roses for this season. We hope that this condition is but temporary and that we may again have the choice varieties of the new Patented Roses.

However, we are very fortunate in having the exclusive distribution for Florida and Southern Georgia of the lovely Mabelle Stearns dooryard Rose.

MABELLE STEARNS. H. Setigera. Plant Patent No. 297. The flower is fully double, with many sharply recurving petals, pale silvery pink on the outside, shading deeper toward the center. It is delightfully fragrant and blooms almost continuously, even through the hot months of summer. The bush is low and wide-spreading, thickly covered with small, dark green foliage. This mat-like appearance makes it perfect for borders and ground-covers, as well as for group planting and single specimens. **\$1.50 each.**

DAYLILIES

ITEMS DESCRIBED IN CATALOGUE
ON PAGES 38 AND 39

Single Divisions (Bibs)

Heading our Daylily list for 1946-47 is the group of three originated by John V. Watkins at the University of Florida. They are: Kanapaha, Mrs. John J. Tigert, and Welaka.

Kanapaha is an all-red Daylily. The blooms of clear cardinal-red are distinctive in that all of the segments are self-colored. There is no eye zone of deeper tone and there is no midrib of lighter value. Kanapaha blooms a month before closely comparable varieties that grow in the Daylily Display Garden at the University of Florida.

Preceding Kanapaha have been the very striking Mrs. John J. Tigert and Welaka with its rosy orange tones.

Kanapaha	Welaka
Mrs. John J. Tigert

WE USE IT HERE—RELiance AZALEA AND CAMELLIA FERTILIZER

In response to many requests of our customers, we are happy to offer this scientifically blended plant-food for the acid-loving plants. We recommend at least two applications a year—more if the soil is very light. A RELIANCE booklet entitled "Azaleas and Camellias" is available here on request. It gives a lot of good information about these plants and suggestions for their care.

25-lb. package.....	\$1 50
100-lb. bag.....	4 00

TERMS OF BUSINESS

LOCATION

General Office and Nurseries at Glen Saint Mary, Baker County, Florida, on Seaboard Air Line Railway, and State Road No. 1, 30 miles west of Jacksonville. Office and Citrus Nurseries at Winter Haven, Polk County, Florida. Visitors are always welcome.

APPLYING PRICES

Orders for five (5), fifty (50), and five hundred (500) plants of one class command the 10, 100, and 1000 rates respectively. Prices herein are for the Retail trade only and cancel all previous lists and catalogues. They are based on current conditions and therefore subject to change without notice.

CASH

or satisfactory reference must accompany all orders for immediate shipment unless the person ordering has an account. On orders booked in advance of the shipping season, 25 per cent down, with the balance due when the shipping season opens, will be required. Reserve orders are accepted only upon condition that they shall be void should injury befall the stock before shipment, from any cause not under our control. Stock held in our fields on reserve long enough to grow to a larger grade will be billed accordingly at shipping time.

BE SURE

to state clearly when ordering how you wish shipment made—Parcel Post, Express, Commercial Truckline or Freight. Lacking this information, we will use our best judgment as to method of forwarding. On orders for shipment by Parcel Post, add 25 per cent to the list price to cover cost of packing and postage. Heavy shipments that would be expensive by Express can usually travel via Commercial Truckline nearly as quickly as by Express and for less cost. Please use our order blanks; additional ones will be mailed on request.

SHIPPING AND PLANTING SEASON

From the middle of November to April for bare-root plants covers the average season, but weather conditions each year govern beginning and ending dates. Balled and Burlapped plants and trees may be safely moved almost every month of the year.

SUBSTITUTION

It is our desire to furnish stock exactly as ordered, but in case varieties are exhausted, please state definitely on your order blank or in your letter if you wish us to substitute. Lacking this information, shipment will be made short—without substitution.

GUARANTEE

We guarantee our stock to be well grown, true to name, properly packed, and shipped according to instructions. In no case shall our liability be more than the original invoice value. There shall be no nursery stock sold under a guarantee to live, except with the understanding that, if it dies, it will be replaced *as soon as possible*, at not less than 50% of purchase price. Claims for replacement must be made in writing within three months after receipt of plants.

CLAIMS

If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within 10 days after the receipt of goods. Our responsibility, except as stated above, ceases upon delivery of nursery stock in good condition to public carrier.
